SLIM WINDOWS, DOORS & PARTITIONS

DESIGNED BY EMEZZI

EMEZZI, OUR BEAUTIFUL STEEL DOORS.

A door, window or wall is a means to live comfortably
in your home, outdoor space or office.

An Emezzi crafts this 'means' in Italian style: slender
profiles, fully transparent.

And indestructible.

QUALITY AND SERVICE

OUR METAL DOORS

Our glass interior doors with metal frames manufactured with slender profiles, indistinguishable from the 1930s steel doors

This version of metal doors has an identical appearance on both sides, which gives them an exceptionally sleek look.

YOUR DOOR, OUR SPECIALTY.

From the moment that the design of your unique door or partition is complete, we can calculate a quotation and extend our offer.

But what happens next?

Has our quotation sparked your interest, but you're feeling hesitant about the final design of your door?

Not to worry: schedule an appointment to visit our showroom and discuss your wishes.

Have you opted to go for an EMEZZI door? The implementation phase can begin!

Once the wall opening, walls and floors are completely finished, you can take measurements. We then look forward to receiving your final order, including measurements, so that we can draw up the details and launch the production administration. We will send you a drawing of your door for approval and await your approval before initiating production.

We will then deliver the door, and installation can be carried out with the highest level of care.

It never gets old - we are as excited as you are to view the beautiful final product!

SLIM DESIGN DOORS

We carry the most slender door and partition systems!

Our in-house developed profiles are slimmer than those used for steel doors. The strikingly slim appearance is credited to a corner radius of only 0.5 mm and a minimum profile width of only 30 mm.

In addition, aluminium is much lighter than steel and offers guaranteed stability, making our door concept easier to handle.

Daily use, and even a slightly overenthusiastic round of polishing, will not damage the powder coating of the metal door.

PANEL DESIGN

Both the horizontal and the vertical bars can be placed symmetrically or asymmetrically for each door or panel based on your design.

also recommend other types of glass, such as bronze, grey, green, matt, figure or even mirrored glass.

For shower partitions, we recommend TIMELESS, a glazing that remains beautiful thanks to its limescale inhibiting properties.

About the glass

Our metal doors are always fitted with laminated or tempered safety glass, in accordance with NBN EN S23-002. Clear glass is most often used, but if you're looking for something a little different we can

PIVOTING DOORS

LOFT STYLE METAL DOORS

Simply push these doors outwards for a free and spacious doorway. The hinges of our revolving doors are almost invisible for a sleek and minimalist look.

The door is equipped with an automatic closing system with soft close. Our EMEZZI pivoting doors rotate

exceptionally smoothly and are user-friendly.

OPTIONS

- Single door
- Double door
- Single or double door with one or more side panels

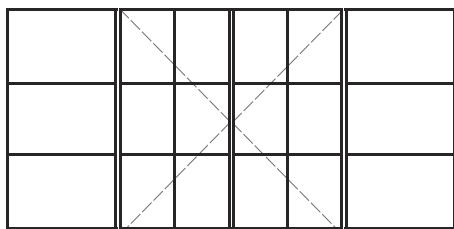

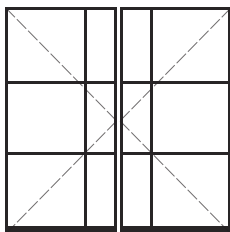

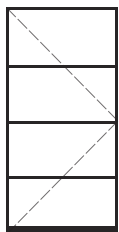

MAX. DOOR AND PANEL WIDTH:

1,5m

MAX. DOOR AND PANEL HEIGHT:

3,0m

- POSITION OF THE PIVOT
 - For a span width of up to 1200 mm at 100 mm, for wide doors the pivot point is displaced, i.e. beyond 100 mm.
 - Locking position at 90°
 - Maximum turning circle in one direction: 150°
 - A corner sleeve is used when a second configuration under 90° is connected.

SLIDING DOORS

SLIDING DOORS TO CREATE SPACE

Are you opting for sliding doors? These slide closely along the wall, and no space is lost as is the case for swinging doors.

The soft sliding doors function optimally thanks to the suspension on hidden carriages for a beautifully free entryway as no guiding profile is required along the floor.

POSSIBLE SOLUTIONS

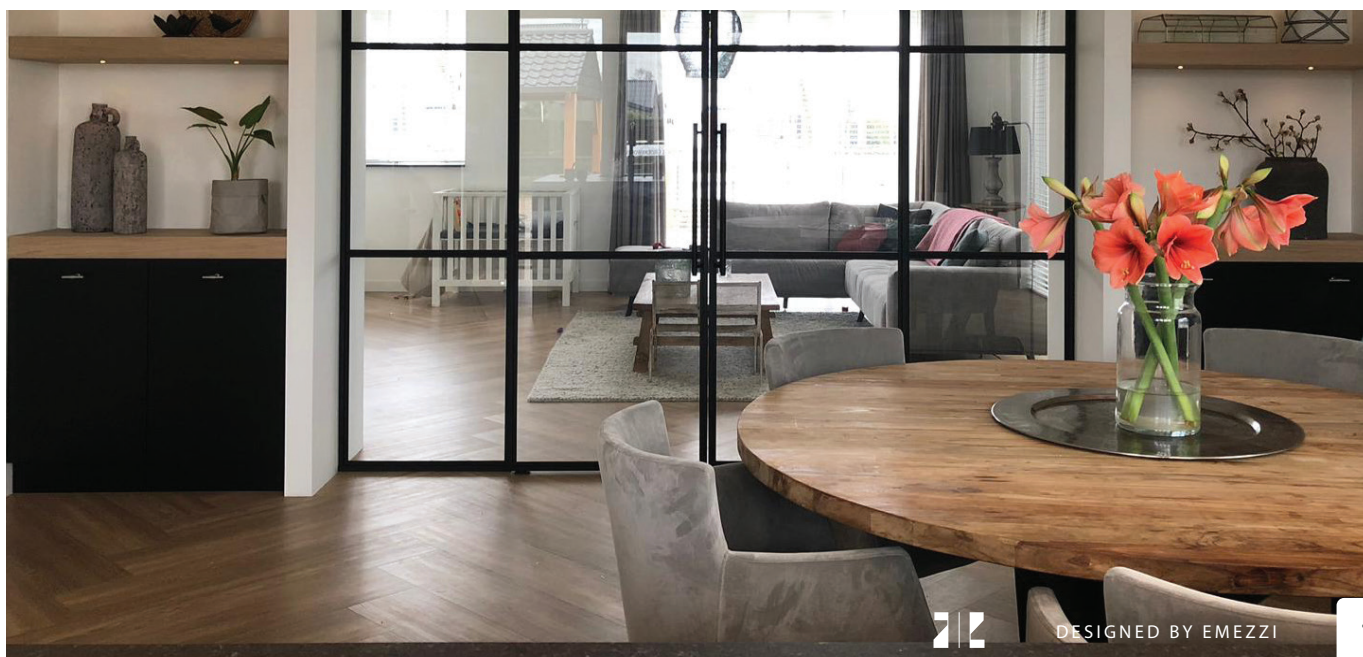

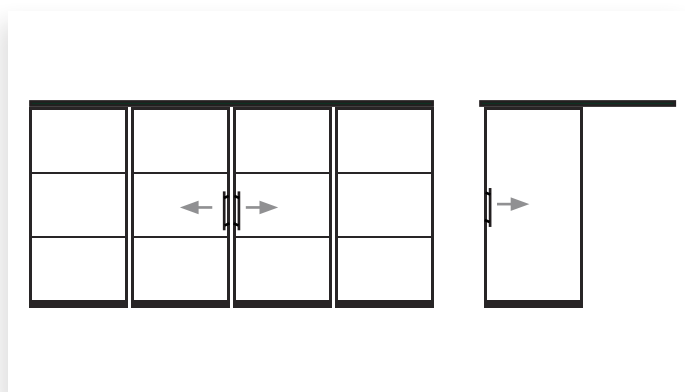

- Single or double door with one or more side panels to the left and/or right
- Option: soft-close locking system, from a door width of 70 cm

MAX. DOOR AND PANEL WIDTH:

1,5m

MAX. DOOR AND PANEL HEIGHT:

3,0m

SHOWER PARTITIONS

WELLNESS ENJOYMENT

The edge profiles of our fixed walls will never rust, making this concept highly suitable for use as a shower partition. The fixed wall is installed at full room height as a corner entry entry or freestanding wall.

MAX. DOOR AND PANEL WIDTH:	1,5m

TIMELESS® STAYS BEAUTIFUL

Less cleaning, more enjoying!
The bathroom is an often used area in the house. For leisure and pleasure.
This does, of course, leave its marks.

TIMELESS is a glass shower wall that keeps its shine.
It is high quality and sustainably produced.
In addition, it is also easy to maintain.

FIXED WINDOWS

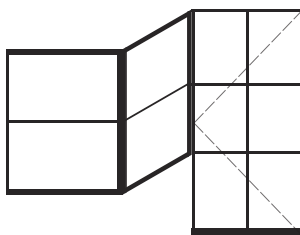

CREATE A UNIQUE STUDIO LOOK

The contemporary sleek look of these partitions creates a modernist studio look in your interior when used as room dividers or combined with pivoting or sliding doors.

MAX. DIMENSION PER PANEL

1,5 x 3,0m

- Infinitely connectable.
- Configurations with connecting doors are possible
- A corner sleeve is used when a second configuration under 90° is connected.

OFFICE PARTITIONS

YOUR HOME AT THE OFFICE!

The EMEZZI walls can be connected endlessly.

Consequently, the characteristic metal look can also be integrated into the professional working environment.

MAX. DOOR AND PANEL WIDTH	1,5m
MAX. DOOR AND PANEL HEIGHT	3,0m

VERANDA PARTITIONS

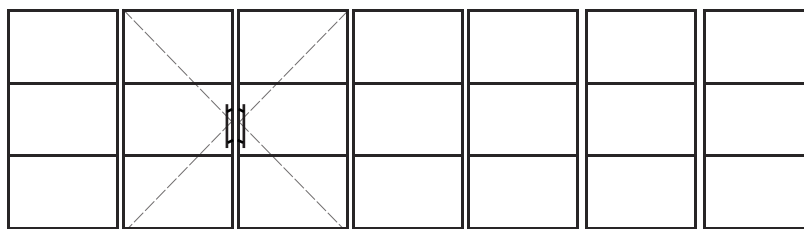

COMFORTABLE AND SECURE

Our EMEZZI fixed partitions are highly suitable for enclosing a covered terrace, garden lounge or open veranda as the system does not rust, and the safety glass

provides the necessary protection.

- Configurations with connecting doors are possible.
- A corner sleeve is used when a second configuration under 90° is connected.

MAX. DOOR AND PANEL WIDTH	1,5m
MAX. DOOR AND PANEL HEIGHT	3,0m
