## FLUSH Specifications

### Available Types

Single Flush / Double Flush / Fixed Panels

### Door Leaf Description / Certifications

Armoured door, 100 mm thick, with double rebate, galvanized steel shield reinforced with 3 beams, insulated with rock wool. Panel cladding: 6–8 mm on the interior side, 16–18 mm on the exterior side.

### Frame Description

Closed-type metal frame in black color (other colors available upon request). Exterior architraves in the same color as the panel, flush with the door leaf.

### Dimensions

Free manufacturing dimensions per cm up to 140 cm x 300 cm.

### Locking System

Gear-operated lock system with 14 locking points (8 moving in two directions, 6 fixed) and a rotating opening limiter. Security cylinder: branded cylinder with 1 construction key and 5 owner keys.

### Hinges

Two heavy-duty hinges, adjustable in 2 directions.

### Handles

Handle, opening limiter, door knob, and peephole in inox or bronze color.

### Insulation

Dropdown seal on the door leaf, sealing gasket on the frame.
